Any Suggestions
Need to have a better conceptual understanding
No
Need more life-oriented teaching on real life problem solving.
No
Doing a good work .. can do better.... keep it up
No
Doing good work.. Can do better.. Keep it up
No
All over good
All over good.
Have to learn new ideas for business improvement
No
Pratibha need to learn for marketing strategy
Need to learn more WhatsApp businesses and interact with customers
Needs Improvement
Good
NA
Try to better
No
They must be more innovative creation activities
They must be more innovative activities
They must me more innovative creation activities
Nil
No
Satisfied
Noting
Need to have practical knowledge for students
No
Nil
Overall good
Students have less practical experience could be due to Covid in the past. Students need to improve their knowledge in food groups (which foods provide what nutrients) and food knowledge in general

No
Need to be more punctual and there is always ray of development.
Improve communication skills
Know about more financial analysis
To know more depth in topic
No suggestions
No
Nothing
No
..

Ms. Sunidhi has been observed prompt in reaching the classes allotted to her. Her classroom management can be better and use of TLM can be more.
She can be more assertive while taking counselling sessions.

All good

All good

Excellent

Excellent

All are good

All is well

They are great at supporting co-curricular activities

A bit more detailed explanation of some subjects

Remaining everything is good

1. Teacher should provide material to the students. If student unable to get.

Good and ok

Maintain to have a better explanation of lessons

Need to have time for preparations to exams

1. Syllabus should be effective
2. Learning should be made more creative and fun with practical examples.

good, moderate, understanding

Very good

Teaching could be made more interactive and practical.
More exposure could be provided to students.

1. There shouldn't be extra load of assignments and records until the last moment.

2. Learning should be more frequently based on visualization of concepts rather than traditional black board usage.

Good teaching method

Teachers have to observe each one behavior in class & outside class

Can use the picturization for the better understanding

Provide the best materials.

Good at everything! There helps us to understand

It's good.. and can be better

The teachers should use projectors while teaching.

Be more interactive, more engagement with students

A teacher should be in friendly manner to every student to communicate with them

I have no suggestions

More interaction

No more improvements is needed

None, it was a good experience

Improve digital classes

Being on time

Giving a follow-up on what they told

Talking about the topic and not getting lost while giving examples

no suggestions

1. Impartiality

2. Personally dealing with poorly performing students

3. Acting fair through internal marks.

No suggestions, I actually like my mentors a lot.

They teach very well and give many examples to make us understand.

The only thing I would like to mention is that if the syllabus is completed before the deadline and a thorough revision is done then it would be the BEST!

Another subject's syllabus was completed a week before the exam.

The learning experience will increase if teachers use some methods like PowerPoint presentations and all to teach some tough topics which will make students easily understand the topic.

- It was a great experience to have studied in this college as the curriculum was always interesting
- It was interactive and had a cohesive environment
- Equality between students

Teachers need to have more patience and be more prepared for the classes, teachers should have better interpersonal relationships with students.

For courses such as Skill Development and Life Skills, I think mere theory-based learning is insufficient. Practical exposure is required.

1.Explanation in Digital Way

2. Interaction with every student personally

3. Teaching in all three languages - English, Hindi, Telugu

Teachers are very skillful

1) would like teachers to explain concepts clearly without speaking Telugu.

motivation from teachers is also very much required as we students rarely get such motivation once we are in college.

Identify the weakness of a student and help her to overcome that

Stop comparing yourself with other students

Teach with examples so that students can understand the concepts

They have to communicate with every student in the class

They have to discuss more future plans and opportunities

Not needed

All ok

No suggestion

Good

Experience And well explained and understanding

1. illustrating the concept through examples
2. Ask the student whether she is having any doubt
3. Conduct some activities for a good and a detailed understanding of the concept

Nothing to tell

Create a welcoming environment.

Make teaching a two-way interaction
