

ST. JOSEPHS COLLEGE FOR WOMEN (AUTONOMOUS) VISAKHAPATNAM

STUDENT SATISFACTION SURVEY 2020-2021

Age:
1,105 responses

Gender
1,105 responses

College Name
1,105 responses

Year
1,105 responses

What degree program are you pursuing now?
1,105 responses

● Bachelor's
● Master's

What subject area are you currently pursuing?
1,105 responses

● Arts
● Commerce & Management studies
● Science
● Other

1. How much of the syllabus was covered in the class?
1,105 responses

● 4 – 85 to 100%
● 3 – 70 to 84%
● 2 – 55 to 69%
● 1 – 30 to 54%
● 0 – Below 30%

2. How well did the teachers prepare for the classes?
1,105 responses

● 4 – Thoroughly
● 3 – Satisfactorily
● 2 – Poorly
● 1 – Indifferently
● 0 – Won't teach at all

3. How well were the teachers able to communicate?

1,105 responses

4. The teacher's approach to teaching can best be described as

1,105 responses

5. Fairness of the internal evaluation process by the teachers.

1,105 responses

6. Was your performance in assignments discussed with you?

1,105 responses

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students

1,105 responses

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

1,105 responses

9. The institution provides multiple opportunities to learn and grow.

1,105 responses

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes

1,105 responses

11. Your mentor does a necessary follow-up with an assigned task to you

1,105 responses

12. The teachers illustrate the concepts through examples and applications.

1,105 responses

13. The teachers identify your strengths and encourage you with providing right level of challenges.

1,105 responses

14. Teachers are able to identify your weaknesses and help you to overcome them.

1,105 responses

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process

1,105 responses

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences

1,105 responses

17. Teachers encourage you to participate in extracurricular activities

1,105 responses

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

1,105 responses

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching

1,105 responses

20. The overall quality of teaching-learning process in your institute is very good

1,105 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.1,105 responses

Its nice
Canteen should be improved
It is all perfect
To be free with every student To make every student free Nothing more
*will be helpful for students if there isn't constant change of lecturers. * I like how feedback is given to students about the paper once we are done with our exams
Career guidance needed
More student teachers interaction
The teachers can use new learning management tools to make online classes more interesting. It would be good if MA English students can do an internship in institutions or companies employing literature based students. Students should be provided information regarding any administrative issues in proper time, not when the students ask and they are put in a spot.
Wash room to be cleaned
Everything is fair & good enough
1. The institution can inculcate more guest lectures and educational trips for different cluster subjects in order to facilitate better understanding. 2. The library can maintain an online portal accessible to all students and daily newspaper and other such interesting and important updates can be posted to ensure better general knowledge among students. 3. Many technical courses can be introduced which can be optional and will help students later in their work life. Courses such as Coding, Python etc. can be included.
Excellent
A place where learning is fun
Media lab was great
More activities could be conducted during classes which would help the students understand the subjects better. Mock tests could be conducted and the results could be discussed in classes.
Practical exposure Good faculty for journalism Practical part of psychology could be improved
Teachers should teach us with exam point view of you.... providing whole Material and matter ... explaining the inner and outer concept ...They should try to make the class interesting rather than monotonous with low pitch voice.... They should connect us with morally and should guide us for our future plans not just syllabus . If it's online teaching they should use ppt format to explain things clearly. They should make us to imagine and explore about the topics . And most importantly exams must be connected alternatively not continuously with out gap...this makes us suffer physically, mentally and emotionally.
Every thing is perfect nothing to improve.

-Can be more proactive with the technology, and updating the syllabi. -Could focus more on Internships. -Could give subjects a more practical approach with better and updated real-life examples.
1: more field visits 2: usage of LED boards Would be more helpful
Everything is fine...
It would be better if teachers use ICT tools like LCD projector, multimedia etc to improve the overall teaching .
I feel like there is a need of improvement in providing the services to students especially regarding the office staff. Basically, should improve the hospitality!!
Good, effective, understandable
You have better services And little freedom
Institution must prepare the students for competitive exams.
1. Needs enough staff to teach all the cluster subjects. 2. The chairs in the classroom are really old and uncomfortable to sit. 3. The canteen's food is not at all good
Had problem with journalism teaching staff as there are no particular or permanent teacher.
1. Thorough revision 2. In depth analysis of topics 3. Help with decisions involved around life and career
Wash room needs to be more clean and newspaper in the washrooms
Needs improvement in teaching and learning
Excellent
Good
Good
Everything is good
I do not have any observations or suggestions.
Everything is perfect
Teaching of the lecture was always excellent.
good
Give more assignments which Different for each individual
No suggestions
Can be more lively during explanation Need to complete syllabus properly
Everything is good
No need to improve ... The present situation is well...
Perfect

I felt great learning in the institution
Giving perfect information on our unknown topics, usually initiating quizzes, asking us to explain topics
Mentoring should be improved
Nothing to improve it's all well with their teaching skills
1.Excellent Infrastructure 2.Effective communication skills 3.Friendly Management
Case study should be implemented
Syllabus should be covered before time and teachers should discuss all the previous papers before examination period... Practical should be explained even more practically...
Use of smart board
Consistency, Practical education and Supportive approach
1.illustrate with more examples 2. individual communication with the student 3. Encouragement
1. They should understand the emotional state of the students or the condition of their family members. They also think about assignments and exams and don't even give fair marks to students who don't write well because of mental depression 2. Not only about studies , but they can also think about students and know whether they have a problem to come to college or exams. 3.They can help students who are suffering seriously with economical depression. Atleast then can reduce the fees or give them time to pay. 4. They should complete the syllabus on time and otherwise the students are getting stress to study all at a time.
Better Placements for the students
All good
1) More field work oriented teaching with real life applications, especially in sciences 2) publishing articles and research papers would be helpful in the form of semester assignments 3) conducting conferences so that students can learn and avail the scope to participate actively.
Everything is good...
Everything is ok
Nothing. Everything is well and good
We want more physical classes than virtual we know this is due to the pandemic but i think physical classes help us more than virtual
Using more ICT tools. More discussion answer sheets or assignment and about what went wrong.
Have to reduce online classes because student's concentration on studies diverting and decreasing
*Everything is fine *It's a bit difficult to listen online classes *Teaching-learning experience is good
Best faculty Needs to improve the cultural activities Canteen should be improved

Good learning experience in this institution
1) Great learning experience. 2) the club and association are of great help for personal development. 3) kindly give a permanent class for students
College management has to react and respond for the points given in the suggestion box.
1. To practice spaced teaching. 2. To pay attention for less communicative students. 3. To identify shortcomings and to help overcome them.
Conducting interesting activities, Using Projectors while teaching and taking on trips and field visits like other our seniors and super seniors!!! (Also, throwing a unofficial farewell for the epjs as well :()
Allow phones, it's high time. More experimental and experiential learning Please provide proper journalism faculty and also all clusters should be made available
Individual interaction Time management of syllabus Provision of proper notes
1. Improve lab session for students to do well for there exams
No suggestions
Little bit maintain slow while teaching
Good
Class with less strength will improve the learning-teaching experience as the people at the end can hear u properly by sitting comfortably
Everything is good
No improvements...all are good
Teachers should be more interact with students
In time complete a syllabus
I don't have any suggestions.
1)Use better graphics and visual media to engage students well. 2)Try to reach every student and ask for their doubts. 3)Encourage Social Learning.
1) Giving explanation by using projected would be great .so, that we can understand and learn the concept easily .
Effectiveness should increase. Encourage students and their talents but discouraging them is not fare. Sports and games activities should conduct for all students.
I Think Teacher's should strictly ask students to give seminars at the 1st year onwards in every group. But not at the final years for better improvement to overcome stage fear effectively..... THANK YOU
Canteen improvement
Communication with all the students in the class
Everything is well and good
Excellent teaching Giving motivation to all the students

They need to encourage the students They need to communicate in English
Every teacher should teach the classes in perfect English language
By group discussion By using technology like explaining concept with video Digital classroom
Illustrate the concepts through live examples
The teaching is good Needs to be more improved in extracurricular activities whether in inside or outside of the instruction Student's participation should be improved more in the best activities
Physics lab equipment's need to be replaced with new one
Smart learning through 3D models in smart board. Assignment performance should be discussed. Performance of the student should be recorded in small test.
Need improve teaching skills
No suggestions are required teaching is very excellent with well-educated teachers
1.Friendly communication between faculty and students with relevant to subject
perfect teaching continues the same way of teaching with juniors
Online classes are not as same as the offline so there are fluctuations in the quality of communication between the faculty and the students. Best part is our senior faculty members are trying hard to catch up with the technology which shows their dedication. But in my opinion, I can only suggest something if online classes turn to offline which might not be possible soon. Thank you!
No placement in our college ...
Communication with students
Better teaching
There should be more usage of ICT tools Field visits should be more often
Everything is good there is no change in studies . But students need some more help
No suggestions
1. Encourage students in all situations 2. Try to help the students to fulfill their achievements. 3. Teach the lessons practically.
Good
1. More field trips 2. Activity based learning
Everything is fine and good
1. Student's have some weaknesses which teacher's need to understand and help them overcome. 2. There should be classes such for communication improvement, confidence building, public speaking. 3. The external evaluation should be good enough.
I had very good experience throughout my college life
They are teaching very well

Everything is well and good.
Need to improve
I like the teaching of this college it's all systematically. Also, I am happy about the opportunity that is provided here through which we come to know many things.
This institution has excellent infrastructure This has amazing learning process Only this is then. Need to experience some practicality top. Along with these
I have been enjoying studying in this institution and I am really thankful to all my lecturers because of this corona we could not meet this year
None
Effective teaching, better interactive environment
Well! Everything was good in our college. We are still Learning all the skills. Because of covid everyone got disturbed and online classes are good n bore too. In my opinion 1.we BA EEP,EPJ,EPO students don't even have any field visits. We want to visit historical places because it will be so useful for us and fun, going after college is good but going with friends n faculty will be extra fun and knowledgeable. 2.teachers communicating with all the students in class will be good. Helping them to solve problems,(Physically and mentally) because a good guru can change mindset of Students into good thoughts. Everything was good and I loved it 😊.
The process of teaching is fair enough and satisfactory .
1. Not all, but some teachers could try to listen to the queries of the students instead of assuming no one has any queries
We want study materials for the subjects
Give assignments
Could use more examples, can help in making us understand concepts easily
Support more on co-curricular activities. Give chance to all the students. Improve communication to the students who feels to scare to share their feelings .
1. Discuss about students' performance in assignments or works assigned to them 2. Interact with the students who are not studying and performing well
Teacher are so good Good and effective communication Excellent teaching
To encourage us with internships, field trip etc may help us.
Offline mode has ni suggestions. But we are facing some difficulties with online mode like network issues, voice can't be audible sometimes...Thank you.
The college helped me grow as a person,
Have to check Network While teaching online classes rather than that no problem is there
1. Some of the students do not feel comfortable to ask the faculty about their doubts. So it would be better if the faculty help them to feel free to ask their doubts. 2. The students who are dull or inactive has to be taken care of. 3. Why do students fail? It is because they aren't learning properly. Please make sure that each of the student in a class is able to get good marks. It will be possible only when the faculty take care of teach

and help those students in improving in their students by helping them to understand the concepts thoroughly.

Thank You SJC!

1. More practical knowledge must be inculcated.
2. Usage of the subject in real life must be told.
3. None

- 1) Explaining with relevant examples
- 2) Periodic small tests to reduce burden at end
- 3) no more

Digital teaching in college
More interactive sessions
Coaching classes for UPSV

Good

- 1) The concepts should be explained in a more practical manner by taking real world examples.
- 2) Field trips and visits should become a part of the academics.
- 3) Concepts can be explained through Videos which are interesting and knowledgeable.

making learning lively

It can be still good

Everything is going great in the college.

Everything is fine regarding teaching.

Make course expectations clear and based on learning outcomes.

1. More use of multimedia and LCD projector
2. Student exchange and field visit should be done
3. Conduct fun activities for learning

I WOULD LOVE TO SEE TEACHER GIVING PROPER NOTES

Giving more notes

- 1.Outdoor teaching
- 2.more use of technology

1. Library books about more competitive related exams
2. Improve infrastructure facilities
3. Extra co - curricular activities related to outdoor games

use a variety of assessments to engage and motivate

- 1.Provide more ICT tools.
2. Give educational field trips for better understanding.
3. Conduct more subjective games that can help students to involve in interested areas.

Industrial visits
Use of more ICT tools

Excellent staff no need any modifications

They should be practical examples and teaching

Provide notes.

Teachers must be even more effective towards students.

Need industrial visit

<p>More internship opportunities should be given Syllabus should be reduced More projects works should given so that we will have a practical knowledge</p>
<p>1) kindly use lcd screens and projectors for teaching. 2) Kindly teachers should know the strengths and weaknesses of students and support them academically and mentally. 3) should make the teaching process effective and qualitative.</p>
<p>All is good</p>
<p>Encourage students even if they are not topper of class, more sports activities should be conducted</p>
<p>1. Environmental friendly 2. The facilities are good 3. Students actives help to improve skills</p>
<p>To try to reach every and ask for their doubts</p>
<p>Give examples while teaching, activities in the class, both side communication</p>
<p>All students are challenged to achieve high expectations, and all students receive the support necessary to meet those expectations.</p>
<p>Nothing is there to be improved..... Everything is perfect in our college</p>
<p>Better to start classes in college as early as possible.... We all need offline classes.... We are not able to understand through the online classes.. Please consider this</p>
<p>They should conduct online exams rather than offline exams.</p>
<p>Need more practical experience like visits.</p>
<p>1.the surrounding of the college is very good 2. college learning and education is up to the mark 3. college is working with a smooth flow</p>
<p>Internal makes should be communicated before the students sit to ESE</p>
<p>Good</p>
<p>Increasing use of ICT tools, field visit opportunity must be planned and providing with notes and materials.</p>
<p>Industrial visit, practical learning should be increased for better understanding and performance</p>
<p>Need more industrial visists Need more assignments</p>
<p>Improve teaching skills Want encourage students Communicate more with the students</p>
<p>Good</p>
<p>More practical preaching Industrial visits</p>
<p>Friendly teachers , should inform the assignment before the time</p>
<p>Provide a subject related materials so the students can know that syllabus very well</p>
<p>Good teaching</p>

We want offline classes
<ol style="list-style-type: none"> 1) Encourage Interactive learning among students 2) Arrange more doubt solving sessions 3) Explain concepts with more practical and relevant examples
Overall it is good
<ol style="list-style-type: none"> 1)practical learning 2) use of visual media 3) encourage to perform curricular activities
<p>Experiential learning must be more available along with field visits and practical learning. More time for participating in extra curricular activities. And, industrial tours would help us gain lot of experiences.</p>
<ol style="list-style-type: none"> 1:Mam will motive me to learn in class in easy manner. 2:she was teach in good manner. 3: she was take care for us .she always support me lot.
<p>Give association less Give a proper note to the students Teacher's understanding the situation of students in nice Thanking you for giving a valuable education for me</p>
<p>More usage of labs Field trips for the management students</p>
<ol style="list-style-type: none"> 1. Proper utilization of ICT tools is to improved mostly for management students. 2.Facilities to management students should be improved like Digital class, industrial visits etc 3.There is no placements for management students, this is very big draw back of this college.
Very good
Notes should be given during the classes after each module.
Every good teaching 😊❤️
Digital explanations
Encourage active and practical learning
<ol style="list-style-type: none"> 1)There should be more use of ICT tools. 2)They should focus more on students weaknesses. 3) Weekly tests so the students can easily memorize and recover what they have learned.
<ol style="list-style-type: none"> 1.Concepts with practical examples should be taken 2.need to keep the classes for doubts 3.digital classes should be keep
If explanation is little more simpler form it could be better.
<ol style="list-style-type: none"> 1. Better to use projectors while explaining 2. Student seminars 3 peer teaching
Using modern facilities will be more interactive
They can teach very well and supported everyone
<p>Mentoring must be done regularly. Strengths and weaknesses of the student must be discussed privately with her.</p>

It would be good if teachers can give an overview about their teaching methodology in the early sessions.
Need to innovative in learning
1. Overall teaching is good ! Satisfied
Teacher are very good at interaction We have so many opportunities for grow and learn We get advise from them
Satisfactory teaching
As, now a days teaching is done online. The following are my suggestions/observation 1. All teachers to present a ppt and explain (some lectures use ppt but not all the time) 2. I've observed that I cannot concentrate in class as no one switch's on the camera. It would be better if it is made compulsory to switch on camera(if so ,then I can wake up early, get ready and sit properly and focus on the class)
Very well education with lots of ethical values
Better placements
Experienced and relevant faculty for MHRM is a necessity Improved relations with organizational practitioners for industrial exposure through a liaison. Active Intervention of management for enhancing PG inclusiveness in the college.
Communication
Need practical classes, digital teaching, revision
Good
Voice must be clear and loud
The faculty are so good and I have learnt many thing from the college.
1.Recorded classes are better than online classes. 2. Revision is required after every unit 3. Doubt sessions separate class need to maintained.
Teachers should provide notes of important topics.
1.Explaining in English but please explain sometimes in Telugu Also. 2.Make the importance to write in note. 3.And everything good. But I'm getting doubt bit i can't solve my problem.
Giving extra care for the weak students, try to be free with the students that they feel free to communicate.
All good
Have to provide materials , improve digital teaching
I don't have any suggestion
The teacher are very good in teaching and overall explanation is good
Teacher must give some important question....during exam times...
Overall it's going good
Try to speak with every students in English.
To have More field visits

While teaching the lessons if mam will use the projectors it will be more interesting than theory classes.
Good
No suggestions
partiality shouldn't be shown when it comes to grade
There is nothing to suggest.
Encouragement, acknowledgement of further opportunities
*we need some basic notes.
Should improve
Teachers should be more friendly.
No particular suggestions.
Better internal verification
More extra curricular activities
Over all the teaching is fairly good.
Better be often
Improving explanation skills (chemistry) Teaching students in an interesting way Engage students in creative learning
The teachers were teaching good Should cover all the topic Should gives notes
Infrastructure, patience, submissiveness
Internal evaluation can be better
Books are not available according to the syllabus (chemistry zoology) Should refer more than a book, even that doesn't help us
There is no any suggestion to give everything is good enough
Regular feedback. Interactive with students. Focus on slow learner .
Good
Good Very good teaching Teaching in two way interaction
Notes can be provided hand to hand when the topic is explained.
I am satisfied with my learning experience. Thankyou!
Need progress in teaching
Online classes should be improved

Excellent
1 students should be help to get access to institutions or organizations when it comes to internship. 2 Career counseling should be given to students 3 Nil
More use of technologies, more no. Of activities,
Interactive sessions
Motivational classes,extra curricular activities, cultural activities
Have to use more of LED projectors for better understanding Usage of more examples Conduct more subject related activities
Good
To provide books themselves
Overall is good
Very well
All are good, no suggestions
Good
More use of illustrations for teaching. Assignments and tasks regularly . Field trips
In the era of online classes, most teachers are downloading ppts off the internet and just reading out loud from them. I would like for the classes to be more interactive We do not get any practical assignments. I would like to get practical assignments instead of just listening to the theory classes.
Management can provide books in time
1. How internal marks are assessed and where the students go wrong, should be discussed.
Some teachers got to be updated like eden ma'am in this digital era. It'd be helpful if she chose to respond in the group rather than to texts personally. We cannot understand her teaching. She has a kind of accent that is pretentious. She said she would conduct mid exam but when the day came she made us fools 😞 we asked sudha ma'am to conduct us then she talked to hod of ict. Finally we wrote our mid. Eden ma'am conducted mid twice for some students as they got below 10marks out of 20 . You can see how she teaches us!!! She said html is a case sensitive language. But it is otherwise mostly she is ineffective to be brutally honest. She is not accountable 😞
1. Internship opportunities 2. Field surveys 3. Use of technology (it would have been better if we had online exams with classes as it is difficult for hostlers to come and right exam in certain conditions (Covid).)
We should focus on our subject. Learn to understand concepts. Experience the subject with our daily life.
Teachers should speak to every student Don't stress the students
Actually they are good in teachings

Everything is awesome, thank you
Teachers must complete the syllabus Must discuss modal question papers And must respond to queries instead of seen zoning
1) Industrial visits atleast/once twice in a semester.
Institution must take care in promoting internships and job opportunities
No suggestions
Everything is good
1. Encourage active and practical learning 2. Make course expectations clear and based on learning outcomes 3. Provide for meaningful teacher-student interactions
Giving notes
The mentor should talk with students in particular day about their weakness.
1. More discussions of the related topics taught in the class. 2. Guidance of the faculty to the students regarding the career oppurtunities. 3. More interpersonal relationship between teacher and student.
Good communications with students
Better communication. Facilities. Canteen .
Teaching by giving more examples would be more effective
I'm satisfied with my learning experience
Notes
Good
Making note make ,concern for less communicative students, encourage students to ask questions
Everything is good
Better way of conducting examination
Much more opportunities like campus should be provided to students.
Practical learning
1. After the completion of syllabus there must be a revision. 2. examples must be given! 3. Industrial visit should be there for better knowledge!

Overall is great
1. Use projector in offline classes 2. Make online classes more interesting and creative 3. Ensure the communication amongst the students in online classes
Teachers has to understand students situation and mindset to teach them. Understanding students problems.

Use led projector for more explanation Complete the syllabus before a month
Very good
No issues
I'm fully satisfied
Industrial trips should be done every year for better experience and knowledge
Audio visual classes should be implemented.
Improve in projection Canteen should be improved
Gud
Good
Good
Interaction with students is needed
Good
Usage of LED should be more Examples should be given a lot because of easy understanding Practical knowledge about industrial visits.
Nice
The teachers are good They communicate well with the students They help the students
Teachers should not show partiality, Teachers should provide more chances of exploring to students They should complete syllabus in time
Need to give material
Try to understand student's problem
No institution to give
It was good and effective
Need more practical learning
Better faculty
Teachers should able to understand us and encourage us.
Nothing more
Using more presentations
Everything is good adding extra examples while explaining a topic can be more useful
Should discuss about internships Talk to students Give assignments
No suggestions...But, due to online teaching, we are not able to learn our subjects really well, neither effectively communicate with teachers.

Because of online classes we can't understand the subject but regular times we have nice classes
Understand the students problem sometimes
Using presentation
Avoid online classes regularly Better regular the colleges from next semester with thorough precautions.
No.its very good experience teaching
Internship opportunities could be provided.
Provide sufficient material
Excellent
1. Reading the lessons is not we expect...explaining it in detailed is needed in which some of the faculty are lacking that strength. 2. Teachers have to be friendly...but that have to be at a certain limit...some students are taking that for granted and behaving the way they want which is not at all expected in such a prestigious college. 3. Writing assignments is the way of getting marks easily....but the way they are giving assignments its too difficult to write all at once and we aren't getting time to cover the subject.
Teaching
College canteen foods can be improved by opting variety of beverages, meals and snacks.
Super
Use smart class a lot
Excellent teaching and very good experience in our collage thanks to ur lovely sisters and teachers
Excellent
Some more field trips and industrial trips to carry on
<ul style="list-style-type: none"> •Need more staff •Need some more time for interaction •Need good amount of skills to be included in the subject
Give more holidays for preparation, the office staff are not informing about any scholarship or examination fee
Use more ICT tools while teaching
Few subjects need more involvement of teachers. Overall the teaching is good.
Good
1.teaching process is different from teacher to teacher.... There are some good points in one teacher, there are some few points which are not good. Sudha mam is very good at teaching, explaining, mentoring. The way she interacts with students is too good. 2.smart classes should be done 3.teachers should able to explain classes to students properly.
Individual talks
Please provide more free courses. Internships. And arrange special classes to learn employability skills.

Everything is good
Also put a competitive exam for students to practices in future.
More equipment in labs
Field trips, use of technology, interaction
Make teaching a two way interaction
Good
Effective Discipline Encourage
Digital board for every class Interact with every student
More use of practical approach while teaching
LED usage Canteen facilities should increased
LED USAGE CANTEEN FACILITIY SHOULD BE INCREASE
Lecture should be friendly
Practical approach should follow by professors
Usage of more visual aids, and live examples
Always good at teaching Creativity skills Gave importance for student suggestions
Glad to have great faculty .
Speaking, learning, encourage
Overall good teaching
Should provide students with more revision
Without partiality, Good sense of humor, Understanding the students personal problems.
More counselling
Teacher should understand the student while teaching and should care more about the weak students rather then the students who keeps onn flattering them.
Use more projector to teach
Good Affective
Improve more aids for teaching
1.Better lab equipment 2. There is need for good quality fan in the class room and more in number . 3. Nil
Proper Material should be provided
Canteen has to be provided with appropriate facilities. Sports is not provided properly.

Otherwise, I find it all good regarding this college, it helped me in pursuing my graduation smoothly with all the provided opportunities.
1.We need statistics lab 2.Need more faculty for statistics
Better providing materials
All are good
Everything is good
Usage of technology General knowledge Application of subject
Reducing each class duration to about 40 or 45 minutes will improve the ability to grasp what is taught more effectively.
Good
Best institution
Teaching and learning process is good
No suggestions everything is upto the mark
1.Regular class Tests should be taken 2.More of the practical demonstrations for the better understanding 3.before starting the class their should be revision of the previous class
Interesting , clear
Great teaching faculty . Overall a great institute for bachelors and masters
Encourage students even in other programs
More internships Industrial training Placements Career counselling for next
More field visits,
Everything is good
Clear about the assignments. Proper notes Practical learning
Everything is in good condition
1. Improve communication skills 2. Pace is important 3. Be direct with the subject.
Provide materials and more industrial trips
It's good but the office members behavior towards children are quite rude
good communication skills, effective voice,& friendly faculty
Everything was going well and good.
It would easier to understand the classes if we could get some lecture notes on the topics we will be taught in class before hand. So we can get better overall picture of the topic beforehand.

Every teacher teaches in their best way.
Student-Teacher interaction need to be improved
Can explain the classes with more examples
Change the faculty.
give some free periods so that we can cope with whole day syllabus...and can ask doubts there itself
Faculty should understand the students problems.
Everything is good
no observable changes , overall mode of learning experience is good
USAGE OF ICT TOOLS AND OTHER TECHNICAL ASPECTS SHOULD BE IMPROVED
Conduct weekend tests
Teaching was good
Teachers are very helpful and supportive
Everything is fine with teaching in the Institute
Good
College is nice
No proper journalism faculty, biased political and religious teaching, sub par involvement with students. Only teachers I enjoyed having classes with were sudha mam and that's it.
Everything is fine
Feeling blessed to study in st Joseph's.
1.)) ENCOURAGEMENT AND SUPPORT TO THE STUDENTS IN ACADEMICS FROM COLLEGE IS NEEDED WHEN THE STUDENT IS ASPIRING FOR HEIGHTS. 2.)) FLEXIBILITY IN EXAM DATES AND SPACE BETWEEN 2 EXAMS 3.)) FLEXIBILITY IN THE RULES AND REGULATIONS IS NECESSARY 🙏 3.)) CONDUCT OF EXAMINATION SHOULD BE INDEPENDENT AND FREQUENT IRRESPECTIVE OF A YEAR GAP AND WASTAGE OF STUDENT.
STUDENT IS THE BASE OF A COLLAGE AND ALL THE DECISIONS SHOULD BE IN FAVOR OF STUDENT....WHICH WILL INCREASE INSTITUTION'S REPUTATION.
THANK You!
Improving
1.Use of media lab to the fullest 2.Stability in epjm faculty 3. Over all it's excellent
Friendly, practical equipment availability
Nice teaching satisfied us
Everything is good. Teachers are always available to solve our doubts.
Good

Everything is fine
Everything is good
Ntg I have
Handouts
Overall good
Extra curricular activities for students would be helpful
Everything is Good .Our teachers teach us in best possible ways.
Technical learning
<p>More practical learning in all the subjects , then always theory or reading , explaining of the topics in syllabus or in textbooks.</p> <p>Field trips , observational skills and more extra information should be developed for psychology , office management etc.. it can be subject wise or career wise of that subject , will be more beneficial and useful.</p> <p>like the experience of internship from the initial time would be much more better and also will get awareness in students about there interests and weak areas and strengths etc..{in the subject like psychology and office management ..} practical knowledge should be more.</p>
Don't have any.
Good
Give more examples
More explanation, overall every thing is good
<p>Using multimedia.</p> <p>Not forcing students to talk instead let helping them come over their inferiority.</p> <p>Proper revision of the syllabus before examination.</p>
<p>Teachers are great and learning is great.</p> <p>Office staff is the problem, they don't inform about important things until its too late. As happened with our batch, during the collection of the hall ticket we were informed about pending fees and not throughout the two years. So administration in my eyes not good.</p> <p>Fans and chairs are necessary to aid in learning and it is lacking.</p>
Everything is fine
Good
Good
The institution gave a lot of knowledge and experience how to develop in the future.
No suggestions necessary for MSc. Chemistry
It's better to conduct offline classes so that students can gain more subject
Upload the class vedios in the college website
<p>I Really feel proud to be Josephine because I am enabling myself to develop and to be a creative person.</p> <p>Each and every person over here are ready to help and provide what the students are expecting and</p>

the faculty is always ready to help every problem of a student and get them out if that. Hope the remaining 2 years I will develop myself more and more and take suggestions from the lectures and will be guided by them.

To take internships

Individual attention

1st thing is we need internships, field visits etc.
2nd is teaching skills are really good no query for this.
Than Qu

It would be better if classes are taken regularly. Better if teacher discusses the causes for lost marks.

Interactive, practical, productive

I don't have any observation because teaching is so good

1) Encouraging more activities which enhance confidence 2) introducing more activities to inculcate speaking skills 3) Organizing activities which helps to build inter-student relationship as students aren't able to interact and know each other due to this pandemic

Should prepare students for competitive exams

1. Encourage active and practical learning.
2. provide meaningful teacher and student interactions.
3. make course expectations clear and based on learning outcomes.

Overall everything is good. I don't have any suggestions as of now.

Inspite of pandemic, the college faculty done a very fantastic job to cover all the syllabus on time, conducting examinations and supporting students in every level. A very heart felt thanks to all the faculty members.

None

1. it should be focus on practicality

Nothing

I'm pretty satisfied with everything so I can't find anything to point out

Practical knowledge

Nothing everything fine from my side

Effective work is done

Need practical knowledge. And little encouragement from teachers

Management is not so good...

I just want to tell that mams may be able to know the names of the students

Teachers need to take us Industrial tours, student internships , Education fields.

Offline class

More elaboration of concepts

Everything is fine and good

Practical learning must be there..it would be easy for the students to learn more effectively...

Management processes sholud be improve...

Make connections to the real world to the course material
Conducting activities which are knowledgeable based, asking questions every day at the end of the class, discussing topics of the subject which are out of syllabus.
Good
It is a very good experience .. I'm totally satisfied with ..
Regular class tests to be conducted in order to maintain a good weekly knowledge
All are good
I don't have any objections with my beloved teachers and departments
Nothing it's perfect
As in this pandemic I'm not able to conclude whether this is the situation every time but surely this is not what I'm thinking I think the institute is of beyond my thinking...
(1) Teaching could be extended to a more practical and real-life approach rather than just being syllabus centered. (2) Internships, placements, field works and industrial visits can be organized. (3) Teaching could be made more interactive and innovative through group discussions and such activities in class.
Though it was online teachers were able to teach and enrich us with their knowledge and the feedback was satisfactory.
1. PDF notes for each subject. Overall good very good
Teachers are cooperative in clearing doubts.
Communicate with students more
There are very good , always ready to help us
No suggestions the way they are teaching makes us much better
Slow explanations of topics, proper and detailed notes,
Communicate with students more
Whatever teachers teach must be relevant to the syllabus. We want to have a clear and depth knowledge of our course. Offline classes are more interactive and more understandable than online classes.
Try to reach every student and ask for their doubts, periodic assessments, proper revision
Good
Good
Regular classes , more labs , digital explanations
Nothing. We want offline mode
We need the right books and materials for the subjects to study well during this course.
Lectures are very supportive

Applications of daily life activities Conducting awareness programmes Taking personal care of each individuals
I am satisfied with my college teaching and many .so no further suggestions .Thank you so much.
I gave my points based on these online and offline classes that were done. A single teacher cannot concentrate on every student. But should treat everyone equally, should not only encourage the one who is always active. Should motivate others too to participate in class. Should be friendly to understand the student level I think. Overall good lecturers. 😊
No, because the best is done over there
Try to reach every student and clarify our doubts
Treat everyone equally, not only studies extracurricular activities should be included, seminars should be included
I am very glad to join this college. I have learned a lot in this college
No suggestions, it is really a good learning experience.
Uses of technology Lesson should be interactive Provide study material
More interaction, being sweet
I improved a lot because of teachers they explained very well
During online classes I am not able to understand due to dispute either technically Or some other issues. My suggestion is to improve online teaching experience
All teachers are but, sometimes they don't give too much time for learning or preparation.
Teachers should provide notes of each chapter after completion of that chapter, that's it.
and everything is all right...
Well
Nothing to give the feedback to our teachers because they are excellent and also their learning skills also improved our knowledge Jai Hindī
1. Internship 2. Scholarship
Internship opportunities , scholar ships
We can understand the student problems.
Good
Must be more conceptual
Depth in the topic
Teaching is excellent and not only in the book knowledge they are tell the out side knowledge also and they also gave guidance and suggestions for our future.
Please improve the quality of teaching & learning
Offline classes

1. Conduct class tests after finishing the topic 2.give proper explanation about related topics also 3.deal with patience
1. Share screen and material in online classes. 2. Teaching board while doing the sums. 3. Study material.
Improve the teaching skills
1) provide reasoning and aptitude classes 2) provide computer class for all the students 3) provide more placements
1. Lack of motivation for students and teachers. 2.Lack of practical knowledge for students. 3. Give less homework. 4.Give more relevant examples for a specific concept to explain.
No more for your teaching skills. Excellent teaching
1.We wish that the faculty will respond much quickly to the students. 2. Entire problems are not covered only illustrations are only being said. 3. While preparing for the exams some subjects are not provided with the notes or text books or pdf's or screenshots. 4. There are a bit few things to mention but if these things get cleared another will be fine.
1. Teacher's teaching is excellent but try to teach them slowly because some persons may not be faster to caught the teacher level accordingly.
Uniformity and disipline is there in the college Friendly teachers Neat and clean campus
Learning experiences is good to understand and to present in paper also .
Good
Good
Good
No need our teaching is very good
Nothing to say
Physical teaching would be grate and effective
GOOD
To decrease the spead of teaching and giving some more time for understanding the subjects
Over all teaching was good but not all the times, most probably good
Good
It's good to study here.
Try to reach every student and ask for their doubts
All are good
Good
1.Focusing more on knowledge and problem-solving skills than exam point of view. 2. More digital learning.
It's fine

Good
Good and Excellent
During online classes, please make sure of good network connections. Otherwise it's very difficult to understand the chapters.
Hope to continue the same
Faculty and institutions need to interact with students. And need to know about student problems . Institution must engage excursions and internships.
Always Learning something new from this college
Understand everything and communication
Nothing to say I'm OK with all my faculty
We will give topic materials to students in college
Everything is fine
The teaching should be explained with projectors and extra multimedia process sometimes
Nothing
Information or anything we are receiving late if we get information on time, we will not hurry that much
Too Aware of limitations
<ol style="list-style-type: none"> 1. The staff must encourage the students in such a way that students will show up their skills and will feel enthusiastic to learn more 2. The teachers must show equal preference to every individual if a ward speaks to ma'am so well encouraging her if not discouraging her these type of attitudes should not be maintained treat everyone equally so that the students will free and come front to ask their queries and some suggestions regarding their subjects
By doing any activities related to subject the content can understand to us
Provide some material. Encourage every students in extracurricular activities.
Teaching is very good i have no suggestions to tell. Thank you
The teacher- student interaction is very low. Leisure periods for utilizing the library is not provided. The rules and regulations are unnecessarily strict, which makes learning tougher
Very good
Good
More effective to teach and clearly
Providing good material
We want to be friendly with teachers but the teachers are not connected with us and very strict teaching and fast teaching. There is no time to read also
I am quite satisfied with the job done from the part of the teachers.
Ask the teacher for every problem to bring clarity
It's a good college
Very good interaction, good quality of teaching with experience

Give some materials to refer for examination point of view we don't get materials to study before exam we get one day before the exam and I want the most to be changed is the timetable where there is no gap to prepare for main core subjects.
Staff wasn't giving proper response to parents.
Improve all things main partiality
Well explanation
Everything is clearly explained. There is nothing to say about teaching, everything is fine.
Give some for self study
Everything is good and fair enough
Everything is perfect the way it is!
Explanation of topic with more examples Should cover all topics
Teachers are doing well
Good
1. Use of ICT tools 2. Identify our weakness 3.
Good
Excellent
Good
We first year student didnt got many facilities of college bcoz of corona ..I cant blame my teachers they tried best as they can do in this situation..its our bad luck that corona strikes us at this tym .
No suggestions needed teachers are very good ..
Teaching well
Very good teaching
1.The Institution believes in practical learning more than book learning which improves our level of understanding 2.The teachers are very clear in everything they teach. 3.Even though online has made it difficult, they do everything to help us
No suggestions the teaching was perfectly fine
Showing some videos regarding the topics
Give some time to students for learning
How to learning more for the subject They were teaches very well Thoroughly learning from the new one
Providing imp questions
Providing important question,
Good
