About The Global Sanskrit Forum:

GLOBAL SANSKRIT FORUM started in 2015 name of *Rashtriya Sanskrit Manch* it is primarily concerned with promoting Indian language, culture & heritage and tries to bring to the global platform and it does not promote any kind of political activity. It is purely scholarly. Now it is working in the field of education more than 12 countries. In India every states has its own organization.

About The College:

St. Joseph's College for Women (Autonomous), is the First Women's College in North Coastal, A.P and the First Autonomous College in Andhra region. A pioneer Women's institution known for its quality education, its has its alumnae spread across the country and the globe. The College has organized a number of training workshops for school teachers in past to create a pool of empowered teachers. In the current scenario, the teachers are constantly required to update and adapt new techniques and technology in the process of molding their students into global citizens.

About The Sanskrit Dept.:

The Department aims to make students aware of the structural, conceptual, Social & cultural aspects associated with the Sanskrit language, encourage students to speak in Sanskrit, expose them to the aesthetics of the language and embolden them to showcase their creative talents.

The aim of the dept. is to promote and revive this ancient Indian language which has been known as the primary language and the pillar of Hinduism and source of literature of Vernacular language.

Objectives:

The Workshop is organised

- * To highlight the significance of Sanskrit studies for Non-Sanskrit people.
- * To demonstrate the relevance of Sanskrit in all the Indian philosophical streams.
- * To show the influence of Sanskrit in modern streams.

About the event:

This International workshop focuses on promoting the relevance and importance of the Sanskrit studies for young minds who are into modern studies. This event encompasses the practicality of the Sanskrit in this digital era. The strong influence and interrelationship of the devabhashaa in different streams i.e. Yoga, Music, Alankara, Computation etc. will be demonstrated by the eminent scholars from different countries. This event is open for all and there is no registration fee. The e-certificate will be provided to all the participants based on the attendance & submitted feedback.

	5:00 P.M	National Anthem

Rationale of the Program

Sanskrit language and literature is a great repository of knowledge encompassing every walk of life, be it science and technology, agriculture and sculpture, astronomy and architecture, medicine and metallurgy, mathematics and management, economics and ecology. This book is a humble attempt to give the reader a glimpse into the rich and vast scientific heritage of India hidden in the treasure-house called Sanskrit.

Sanskrit was the medium of communication, education, law, administration, trade, commerce, art, entertainment, research and of all modes of intellectual debates till a few centuries ago. It was the link language of India. Reviving it again is only a matter of our collective will and time.

Learning Sanskrit is not learning a new language. Most Indian languages have more than sixty percent Sanskrit words. Sanskrit being the cultural language of Bharat from time immemorial, it flows in the very blood of every Indian. The teaching method of Sanskrit, called Grammar-Translation-Method, employed in schools and colleges for the last 150 years and which continues even today, is an age old foreign method which made Sanskrit learning difficult. Now that Sanskrita Bharati has developed new methods of Sanskrit teaching, learning Sanskrit has become very easy.

In today's globalised economy and in the context of knowledge - society, we need Sanskrit more than ever before, to preserve our moorings, to bridge the ancient and the modern, to unravel the knowledge contained in the ancient texts, to protect our Intellectual Property Rights, to explore new avenues of innovations and to lead Bharat into the forefront of the future Knowledge-driven-globe.

Sanskrit is the best computer friendly language. It has been furnished with solid contributions to the system of knowledge. The rich tradition and the scientific linguistic structure have made the language unique kinds of Scientific Epistemology, like – Astronomy, Physics, Engineering, Mathematics, Ayurveda, Agriculture, Music, Linguistic and many more.

In This International Workshop we will learn below topics from Eminent Scholars -

- Sanskrit for Specific Purpose
- Importance of Sanskrit in Indian Music
- The Concept of Alankaras and their application in day to day life
- Shastric concepts relevant for the present and future students
- programming language - understanding structure
- Computational Sanskrit
- What NASA can learn from the Puranas ?
- How to make Sanskrit Class room innovative?
