1G. DEPARTMENTAL BEST PRACTICES

Department	Best Practice	Description of the Practice
Computer Science	Guest Lectures, Seminars & Workshops; Competitions; Presentations; Project/Program/Internship Demonstrations; Projects; Online Resources	Throughout the academic year, the department organizes guest lectures and seminars on core subjects, career-oriented topics, and emerging technologies. Students are encouraged to participate in workshops conducted by reputed institutions. Competitions provide opportunities to showcase skills, develop innovative ideas, strengthen time-management abilities, and build confidence for competitive examinations. Faculty use presentations to explain complex concepts such as memory management, process scheduling, and tree construction, and share the materials as references. Classroom demonstrations of C, Java, and Python projects give students practical exposure to application development, including syntax and runtime errors. Project work deepens subject understanding while developing practical skills, teamwork, communication, responsibility, and confidence. Online resources include NPTEL and SWAYAM.
Chemistry	SWAYAMKRUSHI – Earn While You Learn	Students are trained to prepare useful products such as candles, floor-cleaning liquid, phenyl, detergents, hand sanitiser, dishwash liquid, and handwash from raw chemicals. They also learn packaging and pricing and sell the products through C MART, gaining practical experience and profit-oriented skills. Students are encouraged to make and sell cloth bags from used textiles and upcycle used record paper into baskets, decorative items, and pen stands.
Physics	Physics Education Reimagined	The department promotes active and engaging learning through peer instruction, study groups, flipped classrooms, group projects, and inquiry-based laboratory activities. These approaches strengthen collaborative problem-solving, critical thinking, scientific curiosity, and hands-on learning. Frequent low-stakes assessments provide continuous feedback, while guest speakers, community-engaged learning, and online platforms connect concepts with real-world applications. Physics club activities further encourage exploration beyond the curriculum and support a student-centred learning environment.
Mathematics	Regular Practice Math UG	Consistent practice is encouraged as a key to success in undergraduate mathematics. Students are guided to set aside regular time for exercises, revision, and problem-solving. Continuous practice strengthens conceptual understanding, improves problem-solving techniques, builds confidence, and prepares students effectively for examinations and advanced mathematics courses.
Statistics	Regular Practice Stats UG	Regular practice is emphasized as essential for success in undergraduate statistics. Students regularly solve problems, analyse data, and apply statistical techniques and software. This approach develops analytical skills, strengthens understanding of statistical principles, improves data-analysis proficiency, and provides practical experience applicable to examinations and real-world settings.
Commerce and	Peer Teaching; Personality Development; Awareness	Peer teaching enables students to work in groups, discuss curriculum-related topics, and clarify one another's doubts.

Department	Best Practice	Description of the Practice
Management	of Professional Courses; Case Study Analysis; Bridge Course	Personality-development activities such as role plays, quizzes, product launches, JAM sessions, case analyses, and group discussions strengthen academic, communication, and interpersonal skills. The department creates awareness of career pathways such as CA, CMA, and MBA. Case-study analysis enables Business Administration students to examine business problems, evaluate alternatives, and propose evidence-based solutions. A bridge course helps first-year students bridge the gap between their previous level of study and higher-level academic requirements.
Economics	World Entrepreneurs' Day / Econopreneurs' Fest	In collaboration with the Entrepreneurship Development Cell, the department organized Econopreneurs' Fest on 21 August 2025 to celebrate Entrepreneurs' Day. The programme included a guest lecture by Mrs. Sarita Malla, Managing Director of SS Function Hall, who shared her entrepreneurial journey and encouraged students to think innovatively and take calculated risks. Ninety-six Intermediate and degree students participated in activities such as AdShot, Founders' Recall, and EconoBazaar. Student-run stalls provided hands-on experience in presenting handmade products and food items. The fest promoted entrepreneurship, creativity, innovation, and active participation, and concluded with a valedictory session, felicitation, and certificate distribution.
English	Streaming of English	The practice uses differentiated teaching-learning approaches to address varied levels of English proficiency. First-year students undergo a two-week English Bridge Course followed by an entry-level placement test assessing grammar and comprehension. Based on the results, students are placed in three streams—Advanced, Higher, and Basic English (Stream 1, Stream 2, and Stream 3). The practice aims to build confidence among learners with lower proficiency while challenging stronger learners through higher-order language skills.
English	The Litspell Ball – Diamond of the Season – A Lady's Handmark	The Lit Spell Club organizes engaging literary events in which students portray characters from novels and dramas and participate in activities such as quizzes and cosplay. These activities encourage students to engage creatively with literature and develop confidence and communication skills.
French	Learning a New Language through New Words	Students are encouraged to build vocabulary systematically. As they acquire and use new words, they gain confidence and develop a stronger foundation for learning and communicating in French.
Hindi	Language Development through Poems, Short Stories and Classroom Activities	The department uses poems, short stories, and classroom activities to strengthen students' language and writing skills. These activities encourage participation, creativity, and overall confidence in using Hindi.
Political Science	Survey Reporting as a Strong Course Practice	Students gain practical exposure to public-opinion surveys and reporting. They learn the fundamentals of survey methods and evaluate how survey concepts can be applied in practice, including through voting polls. The department also uses news reports, mini-projects, and group work to

Department	Best Practice	Description of the Practice
		connect classroom learning with current political developments. News reporting is used as a continuous assessment activity to encourage students to read newspapers and follow current affairs, thereby developing practical awareness of politics and governance.
Psychology	Mind Matters Initiative	The Department of Psychology has adopted the Mind Matters Initiative to promote mental-health awareness and emotional well-being among students. It creates a supportive and inclusive campus environment through awareness lectures, interactive workshops, and peer-support sessions on stress management, anxiety, depression, and emotional resilience. Faculty and trained student volunteers provide basic guidance and support while maintaining accessibility and confidentiality. Observance of important mental-health days provides opportunities for discussion and reflection. The initiative aims to reduce stigma, encourage help-seeking, and foster empathy and psychological well-being.
Sanskrit	International Sanskrit Day and International Mother Language Day	International Sanskrit Day promotes awareness of India's rich literary heritage through texts such as the Ramayana, Mahabharata, and Bhagavad Gita, highlighting their enduring values and philosophical depth. International Mother Language Day encourages appreciation and learning of Sanskrit through activities such as singing, drawing, and essay-writing competitions. Together, these initiatives highlight the continuing relevance of Sanskrit and support its preservation and promotion.
Telugu	Non-Telugu Students' Poem Recitation	The department organizes poem-recitation activities for non-Telugu students to encourage speaking and creative skills. The practice also helps students overcome stage fear, improve confidence, and participate more actively in language-learning activities.
Botany	Conservation and Maintenance of the Smart Medicinal Garden	The Smart Medicinal Garden houses approximately 60 types of medicinal plants, each identified with a QR code. Students can scan the codes using smartphones to access information about medicinal properties and taxonomic classification. Regular visits provide experiential learning and integrate technology into teaching. The garden also promotes awareness of plant conservation and sustainable utilization.
Botany	Green Campus Initiative – Eco Green Park	The Eco Green Park initiative promotes awareness among students and parents about the environmentally responsible reuse of waste plastic and other materials. The project was initiated by the Department of Botany with the encouragement and active participation of Sr. Hema, Vice Principal and Assistant Professor in Botany.
Zoology	Maintenance of Vermicompost Unit and Preparation of Vermicompost	The department maintains a vermicomposting unit on campus to convert garden and kitchen waste into nutrient-rich organic manure. Garden waste and approximately 4–5 kg of vegetable waste from the hostel kitchen and canteen are used as feed material, with red earthworms (<i>Eisenia fetida</i>) facilitating decomposition. The practice promotes waste recycling, chemical-free organic fertilization, campus horticulture, and student skill development. The unit is

Department	Best Practice	Description of the Practice
		maintained in a cool, moist, shaded area; partially decomposed materials are prepared into beds, earthworms are introduced, moisture is maintained, and the beds are turned to support aeration and decomposition.
Zoology	Digitalisation of Zoology Museum	The Zoology Museum contains about 400 specimens representing different animal phyla, including corals, molluscan shells, insects, echinoderms, amphibians, reptiles, mammals, and rare invertebrate specimens. To preserve and improve access to this collection, unique QR codes are generated for specimens and linked to digital profiles hosted online. QR labels are placed on specimen bottles and tested for functionality. Digitisation supports teaching and learning, improves accessibility for researchers and educators, and reduces physical handling of specimens, thereby supporting preservation.
Biochemistry	Online Teaching and Examinations; Skill Development; Internships; Workshops; Seminars and Conferences; Wall Journal; Student Recognition; PG Entrance Coaching; Mentoring; Bioflash; Competitions; Industrial Visits; Online Quizzes/Webinars/Guest Lectures; ICT-enabled Teaching; Biology Association Activities; Biomusketeers Club; Model Making; Bridge Course; Book Bank; Remedial Classes; Certificate Course in Food Technology; Immunology Techniques; Project Dissertations; Bioinformatics Practicals; Previous Question Papers; Bioinformatics Live Work; Data Interpretation	The department promotes blended and ICT-enabled learning through online teaching, examinations, quizzes, webinars, guest lectures, and presentations. Students are offered skill-development opportunities, including Medical Lab Technology and Food Technology, and are encouraged to undertake summer internships, projects, industrial visits, and workshops at institutions such as Andhra University and GITAM. The department supports seminars, conferences, mentoring, competitions, bridge and remedial courses, PG entrance coaching, and a book bank. Creative and scientific writing is encouraged through the Bioflash annual magazine and the wall journal 'Known to Unknown'. Biology Association activities, the Biomusketeers Club, model making, project dissertations, immunology and bioinformatics practicals, and data interpretation further strengthen practical, scientific, and creative skills.
Biotechnology	Blended Teaching and Examinations; Semester-end Internships; Workshops; Seminars and Conferences; Wall Journal; Student Recognition; PG Entrance Coaching; Mentoring; Bioflash; Competitions;	The department follows a blended mode of teaching and examinations, combining classroom and ICT-based methods according to the topic. Major Biotechnology students undertake semester-end internships, including community-based, skill-based, and semester-long internships, in accordance with APSCHE guidelines. Students participate in workshops at institutions such as Andhra University and GITAM and actively engage in seminars, conferences, field trips, competitions, and model making. The department

Department	Best Practice	Description of the Practice
	Field Trips; Model Making; Bridge Course; Club Activities	supports mentoring, PG entrance coaching, creative and scientific writing through Bioflash, a wall journal titled 'Known to Unknown', and bridge courses. Club activities are conducted regularly, and student participation is documented through the department blog and YouTube channel.
Home Science	Nutrition Education and Low-Cost Recipe Development; Eco-Friendly Textile Production; Sustainable Interior Space Planning; Community Outreach and Awareness; Child Study and Developmental Assessment	The department trains students to prepare low-cost, nutrient-rich recipes using locally available ingredients and conducts demonstrations and awareness programmes on balanced diets, anaemia prevention, and healthy eating. Students design eco-friendly textile products such as cloth bags, embroidered items, and upcycled garments using waste materials, developing creativity, technical skills, environmental responsibility, and entrepreneurship. Sustainable interior planning involves creating functional spaces using low-cost and recyclable materials while considering lighting, ventilation, and aesthetics. Community outreach includes surveys and awareness programmes on health, hygiene, nutrition, and women's empowerment. Child-study activities involve observing and assessing children's physical, cognitive, emotional, and social development through visits to preschools and Anganwadi centres.

III. FUTURE PLANS OF THE DEPARTMENTS

Department	Future Plans
Computer Science	1. Organize workshops and seminars led by subject experts. 2. Develop useful software solutions for the institution. 3. Provide training in additional skills that support interview and career readiness beyond the curriculum. 4. Train and motivate students to explore entrepreneurship.
Chemistry	1. Publish a textbook on General Chemistry. 2. Launch an LMS course titled “Physical Chemistry & Nanotechnology” on the SOWeLEARN platform. 3. Introduce EAMCET and JEE coaching for Intermediate students and competitive-examination coaching for undergraduate students. 4. Expand coaching support for other competitive examinations.
Physics	1. Explore the introduction of postgraduate programmes in Environmental Science. 2. Develop an interdisciplinary doctoral programme. 3. Establish stronger collaborations between the department and industry. 4. Organize national and international conferences, seminars, and workshops.
Mathematics & Statistics	1. Establish a research centre in Mathematics. 2. Increase participation in MOOC courses among faculty and students. 3. Apply for more research projects. 4. Encourage faculty members in both departments to pursue doctoral qualifications. 5. Introduce Quantitative Aptitude Training as a Skill Development/Capacity Building course. 6. Introduce more core electives at the postgraduate level. 7. Encourage more students to qualify in NET/SLET examinations.
Commerce and Management	1. Strengthen peer teaching to facilitate collaborative learning and clarification of curriculum-related doubts. 2. Conduct personality-development activities such as role plays, quizzes, product launches, JAM sessions, case analyses, and group discussions. 3. Create greater awareness of professional courses such as CA, CMA, and MBA and guide students towards suitable career pathways. 4. Use case-study analysis to help Business Administration students examine business problems, evaluate alternatives, and propose evidence-based solutions. 5. Strengthen the Bridge Course for first-year students to bridge the gap between their previous level of study and higher-level academic requirements.
Economics	Enhance student admissions by creating awareness of career opportunities in Economics, introducing skill-based learning, strengthening industry interaction, and promoting practical understanding through seminars, outreach programmes, and interdisciplinary collaboration.
English	1. Encourage students to undertake more research-oriented activities. 2. Enhance communication skills through learner-centred activities. 3. Encourage students to enrol in more MOOCs. 4. Organize additional workshops and seminars for students and faculty. 5. Initiate more outreach programmes that promote community service.
French	Conduct an adult literacy programme in rural areas.
Hindi	Conduct adult literacy programmes in rural areas.
Political Science	1. Reintroduce the HEP group in English medium. 2. Strengthen group coaching initiatives. 3. Introduce a new group combining Public Administration, Politics, and History to

Department	Future Plans
	support preparation for civil services and other competitive examinations.
Psychology	1. Develop the “SAHAY” Counselling and Wellness Centre on campus to provide structured psychological support and professional guidance. 2. Introduce short-term certificate courses and skill-based training in counselling skills, child psychology, and mental-health awareness to enhance employability. 3. Promote a research culture by encouraging minor research projects, conference participation, and publication of findings. 4. Build collaborations with mental-health organizations, schools, and NGOs to provide field exposure and internship opportunities. 5. Integrate digital tools and online platforms for mental-health education and outreach. 6. Create a holistic, practical, and socially relevant learning environment.
Sanskrit	1. Organize Sanskrit and Science Exhibitions during August and December. 2. Conduct competitions that enhance students’ skills and creativity. 3. Offer Spoken Sanskrit classes to strengthen communication skills. 4. Arrange guest lectures by subject experts. 5. Organize student-led seminars to promote active learning and presentation skills. 6. Stage Sanskrit skits to improve fluency and confidence in spoken Sanskrit. 7. Conduct ICT-enabled classes and encourage students to use ICT tools for seminar presentations.
Telugu	Conduct an adult literacy programme in rural areas.
Botany	1. Develop the department as a centre of academic excellence and research in Plant Science through innovative, student-driven research initiatives. 2. Explore research and training in areas such as hydroponics, greenhouse systems, mushroom cultivation, and nursery management. 3. Conduct lecture-workshops in Botany.
Zoology	1. Explore the introduction of an M.Sc. programme in Zoology. 2. Organize an international conference.
Biochemistry	1. Improve laboratory facilities to support the analysis of biological samples. 2. Conduct interactive and participative workshops to enhance students’ practical skills. 3. Introduce bioinformatics applications in biochemistry, including molecular modelling. 4. Introduce immunology-related studies to create awareness of the scope and applications of Biochemistry. 5. Strengthen fundamental knowledge in Biochemistry and provide exposure to emerging areas such as protein engineering to meet industry requirements.
Biotechnology	1. Provide students with greater opportunities to learn and use scientific instrumentation. 2. Increase field visits to research laboratories. 3. Organize more workshops that strengthen students’ subject knowledge and practical capabilities.
Home Science	1. Introduce advanced skill training in food processing, nutrition counselling, textiles, and interior design. 2. Establish small-scale production units to promote student entrepreneurship and income generation. 3. Strengthen research activities and student project work. 4. Conduct more community outreach and awareness programmes on health and nutrition. 5. Develop collaborations with industries, dietitians, and health professionals. 6. Integrate digital learning tools and ICT-based teaching methods. 7. Organize workshops, seminars, and guest lectures regularly. 8. Promote sustainable practices such as food-waste utilization and eco-friendly

Department	Future Plans
	products. 9. Encourage student participation in exhibitions and competitions. 10. Develop career-oriented programmes and placement opportunities.

II. OVERALL DEPARTMENT ANALYSIS – SWOC

Dept.: Computer Science	
STRENGTHS	1. Experienced and committed teaching faculty. 2. Well-equipped laboratory with internet facilities. 3. Motivated and dedicated faculty members. 4. ICT-enabled teaching practices.
WEAKNESSES	1. Some faculty members have relatively less experience, although they are dedicated to their work. 2. Need for more professorial-level faculty support.
OPPORTUNITIES	1. Increase campus placements and promote entrepreneurship. 2. Provide training for entrance examinations such as MCA, M.Sc., and MBA. 3. Promote interdisciplinary growth and collaboration across departments.
CHALLENGES	1. Organizing seminars and conferences. 2. Improving student placement opportunities. 3. Keeping pace with the latest developments in Computer Science.
Dept.: Chemistry	
STRENGTHS	1. Faculty members with more than 25 years of teaching experience. 2. Well-equipped laboratories.
WEAKNESSES	1. Limited number of students opting for B.Sc. Chemistry as a major. 2. Lengthy experimental procedures and limited laboratory time.
OPPORTUNITIES	1. Conduct entrepreneurship and 'Earn While You Learn' programmes through certificate courses. 2. Introduce coaching for APPGSET and other competitive examinations.
CHALLENGES	1. Managing the large number of Chemistry courses in the III, IV, and V semesters. 2. Creating suitable employment opportunities for women graduates in chemical and pharmaceutical industries. 3. Motivating more students to pursue postgraduate studies in Chemistry.
Dept.: Physics	
STRENGTHS	1. Faculty members with doctoral and M.Phil. qualifications. 2. Fully equipped laboratories. 3. Smaller minor groups enable more personalized attention and mentoring.
WEAKNESSES	1. MPC and MPCS groups are combined, resulting in a higher student–teacher ratio. 2. An additional faculty member is required to meet the present workload. 3. The absence of a major programme limits departmental growth.
OPPORTUNITIES	1. Greater focus on internships can improve access to employment opportunities. 2. After the four-year B.Sc. programme, students may have the opportunity to join the second year of a postgraduate programme directly. 3. Collaborate with other science departments to offer an Applied Physics course.
CHALLENGES	Not specified in the source document.
Dept.: Mathematics	
STRENGTHS	1. Expert and knowledgeable faculty committed to teaching and research. 2. Comprehensive curriculum covering core Mathematical and Statistical topics with opportunities for specialization. 3. Opportunities for undergraduate research and faculty partnerships. 4. Supportive learning environment through tutoring, study groups, and academic advising.
WEAKNESSES	1. Limited resources, including budget constraints or inadequate facilities. 2. Shortage of qualified faculty may restrict specialized courses and academic support. 3. Curriculum gaps may limit preparation for modern applications of Mathematics and Statistics.
OPPORTUNITIES	1. Interdisciplinary collaboration with areas such as Computer Science, Economics, and Biology. 2. Integration of technology such as data-science tools and interactive software.

	3. Industry partnerships to create internships and inform curriculum development.
CHALLENGES	1. Addressing mathematics anxiety among students. 2. Attracting and retaining diverse students, particularly from underrepresented STEM groups. 3. Keeping pace with developments in Mathematics, Statistics, and teaching methodologies. 4. Meeting global academic competition while maintaining high standards in education and research.
Dept.: Statistics	
STRENGTHS	1. Well-trained faculty with expertise in statistical theory and applications. 2. Potential for research collaborations and publications. 3. Strong interdisciplinary scope, including applications in Economics and Social Sciences.
WEAKNESSES	1. Limited resources, including insufficient funding, outdated software, and inadequate infrastructure. 2. Difficulty sustaining student engagement because of abstract concepts. 3. Need to strengthen the connection between academic content and industry requirements.
OPPORTUNITIES	1. Growing demand for statisticians in data-driven industries. 2. Scope to offer specialized courses such as Machine Learning and Data Visualization. 3. Partnerships with research institutions and industry for projects.
CHALLENGES	1. Competition from related fields such as Mathematics, Computer Science, and Economics. 2. Keeping pace with evolving statistical techniques and tools. 3. Overcoming misconceptions about Statistics as a difficult subject.
Dept.: Commerce and Management	
STRENGTHS	1. Experienced faculty. 2. Highly qualified and ratified faculty members. 3. Personality-development sessions for students. 4. Good academic infrastructure.
WEAKNESSES	Students come from diverse educational backgrounds.
OPPORTUNITIES	1. Adoption of innovative teaching and pedagogical methodologies. 2. More student seminars and paper presentations. 3. Conduct career-development programmes.
CHALLENGES	1. Student attitude and behaviour. 2. Attendance shortages.
Dept.: Economics	
STRENGTHS	1. Active organization of seminars, fests, and elocution competitions. 2. Dedicated and supportive faculty members. 3. Good academic environment and discipline. 4. Exposure to current economic topics through departmental events. 5. Ability to engage students in co-curricular activities.
WEAKNESSES	1. Low or no admissions in the Economics major. 2. Limited student awareness of career opportunities in Economics.
OPPORTUNITIES	1. Introduce certificate courses in areas such as Data Analysis, Banking, and Financial Literacy. 2. Use AI and digital tools for Economics learning. 3. Promote research activities and student projects on local economic issues. 4. Encourage preparation for UPSC, APPSC, and banking examinations.
CHALLENGES	1. Strong competition from Commerce, Management, and Computer Science. 2. Difficulty attracting students because Economics is sometimes perceived as theoretical rather than job-oriented.
Dept.: English	

STRENGTHS	1. Streaming of students according to linguistic proficiency at the undergraduate level. 2. Continuous assessment of students. 3. Well-equipped college and departmental libraries.
WEAKNESSES	1. Constant turnover of faculty. 2. Heterogeneity among students in General English classes. 3. Large class sizes.
OPPORTUNITIES	1. Growing popularity of English as a medium of communication. 2. Use of the language laboratory. 3. Scope for professional growth.
CHALLENGES	1. Managing heterogeneous groups effectively. 2. Supporting learners from vernacular-medium backgrounds.
Dept.: French	
STRENGTHS	Thirty-seven students joined the French course during the year.
WEAKNESSES	Low student strength.
OPPORTUNITIES	Students are eligible to appear for international French examinations.
CHALLENGES	Difficulty in ensuring that students achieve the expected level of learning.
Dept.: Hindi	
STRENGTHS	More than 110 students joined Second Language Hindi during the year.
WEAKNESSES	Lack of a dedicated large room for conducting special events.
OPPORTUNITIES	Career opportunities include Hindi translator, news reader, teacher, news reporter, and Hindi Officer positions in government sectors.
CHALLENGES	Improving students' curricular, co-curricular, and extracurricular participation.
Dept.: Political Science	
STRENGTHS	1. Satisfactory student admissions in the Political Science major. 2. Syllabus is relevant to the needs of society.
WEAKNESSES	A predominance of first-generation learners.
OPPORTUNITIES	1. Preparation for competitive examinations. 2. Developing practical awareness of politics and encouraging informed voting.
CHALLENGES	1. Declining student interest. 2. Limited awareness of career opportunities.
Dept.: Psychology	
STRENGTHS	1. Strong academic foundation supported by qualified and experienced faculty. 2. Balanced emphasis on theoretical knowledge and practical application through lectures, workshops, and awareness programmes. 3. Supportive learning environment and active student participation. 4. Focus on mental-health awareness. 5. Good rapport with students, encouraging open communication and guidance.
WEAKNESSES	1. Scope to diversify academic engagement through more interdisciplinary activities and student-led initiatives. 2. Need to broaden exposure to varied perspectives in Psychology and participation in academic forums.
OPPORTUNITIES	1. Growing awareness of mental health creates opportunities to expand departmental activities. 2. Introduce certificate courses and collaborate with mental-health organizations. 3. Establish a counselling centre on campus. 4. Enhance research activities and organize national-level seminars. 5. Use digital platforms for mental-health education and outreach. 6. Build partnerships with schools, hospitals, and NGOs for practical exposure and career opportunities.
CHALLENGES	1. Keeping pace with emerging trends and advancements in Psychology. 2. Regularly updating resources and teaching methodologies. 3. Expanding outreach and strengthening industry and institutional collaborations. 4. Increasing awareness and participation in mental-health initiatives.

Dept.: Sanskrit	
STRENGTHS	1. Competent and dedicated faculty members. 2. Regular organization of diverse academic and co-curricular activities.
WEAKNESSES	1. Insufficient faculty strength. 2. Absence of a B.A. Sanskrit programme.
OPPORTUNITIES	1. Highly enthusiastic and motivated students. 2. Growing interest in Sanskrit typing skills. 3. Increasing demand for Spoken Sanskrit proficiency.
CHALLENGES	1. Limited opportunities for higher studies in Sanskrit. 2. Difficulty attracting students because of limited perceived career prospects.
Dept.: Telugu	
STRENGTHS	More than 140 students joined Second Language Telugu during the year.
WEAKNESSES	Lack of a dedicated room for conducting special events.
OPPORTUNITIES	Career opportunities include radio jockey, Telugu translator, Telugu teacher, and reporter.
CHALLENGES	None specified in the source document.
Dept.: Botany	
STRENGTHS	1. Well-developed curriculum aligned with NEP and APSCHE, with Botany offered as a Single Major and Minor subject. 2. Well-qualified faculty using student-centred teaching-learning-evaluation systems. 3. Good infrastructure, well-equipped laboratories, and availability of specimens. 4. Skill enhancement through student internships and projects. 5. Accessible, student-centred mentoring. 6. Opportunities for progression to higher education and employment in government and private sectors. 7. Partnerships with other institutions and exchange programmes.
WEAKNESSES	1. Insufficient laboratory facilities. 2. No dedicated botanical garden. 3. Need for additional laboratory space/equipment and a laboratory assistant. 4. Limited coordination and collective effort among faculty.
OPPORTUNITIES	1. Introduce new certificate and online courses in Botany. 2. Establish a proper botanical garden. 3. Develop a greenhouse or polyhouse. 4. Establish a mushroom cultivation unit.
CHALLENGES	1. Need for some faculty members to continuously upgrade subject knowledge and skills. 2. Imbalanced workload when faculty members are unavailable without substitute arrangements. 3. Need to cultivate greater interest in basic science and Botany among new students. 4. Need for improved faculty coordination and a respectful, harmonious working environment. 5. Prolonged faculty shortages have increased workload on remaining staff. 6. Need for improved infrastructure, including individual faculty cabins, tables, and chairs.
Dept.: Zoology	
STRENGTHS	1. Digital Zoology Museum as a study resource. 2. Good infrastructure and laboratory facilities. 3. Efficient, sincere, and hardworking faculty team. 4. Innovative teaching-learning techniques to enhance student knowledge. 5. Excellent academic results with a consistent pass percentage.
WEAKNESSES	Need to strengthen scientific temperament and research orientation among undergraduate students.
OPPORTUNITIES	Establish a proactive and collaborative approach to enhance the departmental profile.
CHALLENGES	Student enrolment after the introduction of the Single Major has been disappointing.

Dept.: Biochemistry	
STRENGTHS	1. Small student strength enables focused learning. 2. Hands-on experiential learning through learning by thinking and doing. 3. Innovative teaching-learning techniques. 4. Outcome-based teaching with feedback for each activity.
WEAKNESSES	Laboratory facilities need further improvement.
OPPORTUNITIES	1. Scope for careers in the pharmaceutical and food industries. 2. Opportunities for higher education and research.
CHALLENGES	Keeping students and faculty updated with the latest techniques and trends in Biochemistry.
Dept.: Biotechnology	
STRENGTHS	1. Hands-on experience in Tissue Culture, Electrophoresis, and PCR. 2. Training in nursery techniques and construction of hydroponic systems. 3. Innovative practical activities. 4. Well-equipped laboratory. 5. Direct student exposure to industries.
WEAKNESSES	1. Need to strengthen understanding of real-time biological activities of biomolecules. 2. Need for more campus recruitment drives related to core subjects.
OPPORTUNITIES	1. Strong scope for conducting workshops. 2. Frequent interaction with subject experts through guest lectures.
CHALLENGES	1. Developing commercial protocols in tissue culture. 2. Designing low-molecular-weight proteins through in-silico methods.
Dept.: Home Science	
STRENGTHS	1. Multidisciplinary subject covering Nutrition, Textiles, Human Development, and Extension. 2. Strong practical and skill-based learning approach. 3. Experienced and supportive faculty. 4. Good community outreach and extension activities. 5. Focus on entrepreneurship and self-employment skills. 6. Availability of basic laboratory and practical facilities.
WEAKNESSES	1. Limited advanced laboratory equipment and infrastructure. 2. Limited industry exposure and collaborations. 3. Limited funding for research and development. 4. Lack of awareness about career opportunities in Home Science. 5. Inadequate placement opportunities in specialized fields.
OPPORTUNITIES	1. Growing demand for nutritionists, dietitians, and wellness experts. 2. Scope for entrepreneurship in food products, textiles, and interior design. 3. Collaboration opportunities with NGOs, hospitals, and industries. 4. Government schemes supporting skill development and women's empowerment. 5. Increasing awareness of sustainable living and eco-friendly practices.
CHALLENGES	1. Changing industry demands require continuous curriculum and skill updates. 2. Competition from specialized professional courses. 3. Limited job opportunities in rural areas. 4. Need for continuous upgrading of infrastructure and technology. 5. Ensuring student awareness and interest in emerging career pathways.
